HLTAID009 Provide Cardiopulmonary Resuscitation and UETDRMP018 Perform Rescue from a Live LV Panel

HLTAID009 Provide Cardiopulmonary Resuscitation:

Cardiopulmonary Resuscitation (CPR) is the name given to the technique of combining external cardiac compressions with rescue breaths. CPR may be required in a range of situations, including community and workplace settings. This course provides the knowledge and skills needed to perform CPR in line with the Australian Resuscitation Council (ARC) guidelines.

UETDRRF004 Perform Rescue from a Live LV Panel:

This unit includes the skills and knowledge required to rescue a person in contact with low voltage live electrical conductors and equipment. It also covers the requirements and processes for a person to carry out a risk assessment of an electrically hazardous situation and to perform low voltage rescue procedures without hazard to themselves or others. It is a pre-requisite requirement of this unit that the learner has successfully completed the unit HLTAID009 Provide Cardiopulmonary Resuscitation.

Course Content Summary

- Hazard and risk identification and control
- Electricity isolation
- Tools and emergency equipment familiarization and use
- Procedures and response for rescue from LV panel
- Respond to an emergency situation
- Perform CPR (Cardiopulmonary Resuscitation)
- Defibrillator / AED Training
- Communicate details of an incident

Course Details

Cost:

\$120.00 per participant

Payment Options:

Cash / MasterCard & Visa / Debit Card

Duration:

½ day (Approx. 4 hours)

Clothing:

Long Pants
Work Shirt (No Singlets)
Covered Shoes (No Thongs)

Refreshments:

Complimentary tea, coffee and biscuits
Fridges and microwaves available for participant use

Location:

Dawsons Training
Gate 2: 50 Greenbank Road, Aeroglen QLD

Outcome:

Statement of Attainment

Industry Expiry:

One (1) year
