

RTO#32461

TLILIC0040 Licence to Operate a Non-slewing Mobile Crane (Greater than 3 tonnes capacity)

The training to achieve this High Risk Work Licence – Non-slewing Crane (CN), consists of 3 components; formal theory training, supervised work experience and assessment.

Our Work Ready course consists of 5 days of intensive training with our qualified trainer and assessor. This course option is suitable for participants without access to a workplace to gain experience, or workplaces who don't have the resources to supervise staff while gaining experience. Learners must meet a level of practical ability before undergoing a Workplace Health & Safety Queensland licensing practical assessment on the final day. If at any time, the assessor recognises the need for the participant to undergo additional training, participants will be given their log book to obtain additional experience in the workplace or offered further hours to complete at an additional practical training session(s). Should this be required, re-attendance fees may apply.

On successful completion of this course, you will receive a Statement of Attainment and the required paperwork to apply for a High Risk Work (HRW) Licence – Non-slewing Crane (CN) class. *Participants must be over the age of 18.*
